

**Progress Report #1  
Web-Based EMS Training  
October 2011**

<b>OBJECTIVE</b>	<b>STRATEGY</b>	<b>ACTIVITIES (09/01/11 – 09/30/11)</b>
Improve access to quality continuing education training for rural Florida EMS providers	Develop a web-based educational program that would be accessible by any EMT or paramedic in rural Florida at low cost with content supplied at no cost by medical and EMS professionals within Florida via pre-recorded lectures.	<ol style="list-style-type: none"><li>1. Searched for website developer</li><li>2. Began State license application</li><li>3. Entered discussions with Shands Jacksonville for content development</li><li>4. Researched equipment suppliers</li><li>5. Entered agreement with medical director</li></ol>
